This year Home For Life® is thrilled to have A-List actress, conservationist, U.N. representative and humanitarian Ashley Judd as our special guest. Ashley is an ardent advocate for supporting animals and of conservation for animals in the wild, particularly primates. Her focus in the presentation will be her work on behalf of conservation and the great apes, as well as her dogs, her book and her new movie, "A Dog's Way Home." The glamorous evening will also feature all the exceptional amenities associated with Home for Life® events including music, silent and live auctions with one of a kind offerings, a delicious dinner with wine service and a program

highlighting the animals of Home for Life®. Mark your calendar for a glamorous evening - you won't want to miss this special night!

Home For Life® is an expression of a new kind of animal shelter—the long-term animal sanctuary. We provide animals with loving care, a nurturing environment that is safe and stable; a place to belong... a home for life. We provide lifetime care for cats and dogs with special needs who cannot find a home, but who can still lead a quality life. At Home for Life®, our animals are not offered for adoption. Once an animal comes to us, it truly has a home for life. In Home For Life's® Peace Creatures® program our animals provide pet therapy to vulnerable kids and adults in our community- over 6,200 annually. Helping at the University of Minnesota hospitals, the VA Poly Trauma unit, Tubman Family Alliance, Women of Nations shelter, and nursing homes throughout the Twin Cities these animals provide solace and joy through healing pet therapy. Through our example, we hope to discourage an acceptance of euthanasia for animals who can still live a quality life. Just as apathy can become a way of life, so can empathy.
